- How to Launch your own crypto project

■ Others

- Forex Trading
- E-Commerce
- Network Marketing
- Affiliate Marketing
- Blockchain Development

Blockchain Incorporated

Blockchain

Blockchain is a decentralized, distributed ledger technology that records the provenance of a digital asset. It makes the history of any digital asset unalterable and transparent through the use of decentralization and cryptographic hashing.

Payment

The payment process for the leeway contract is recorded on the blockchain providing 100% transparency and unalterable records

Smart Contract

What is a Smart Contract?

A smart contract is a self-executing contract with the terms of the agreement between buyer and seller being directly written into lines of code.

Decentralized Financial Management

The management system of Leeway Edu Platform from registration, commission, reward distribution and withdrawal will be handled by a Smart Contract. This will ensure zero manipulation of subscribers' earnings and provide 100% transparency of funds distribution.

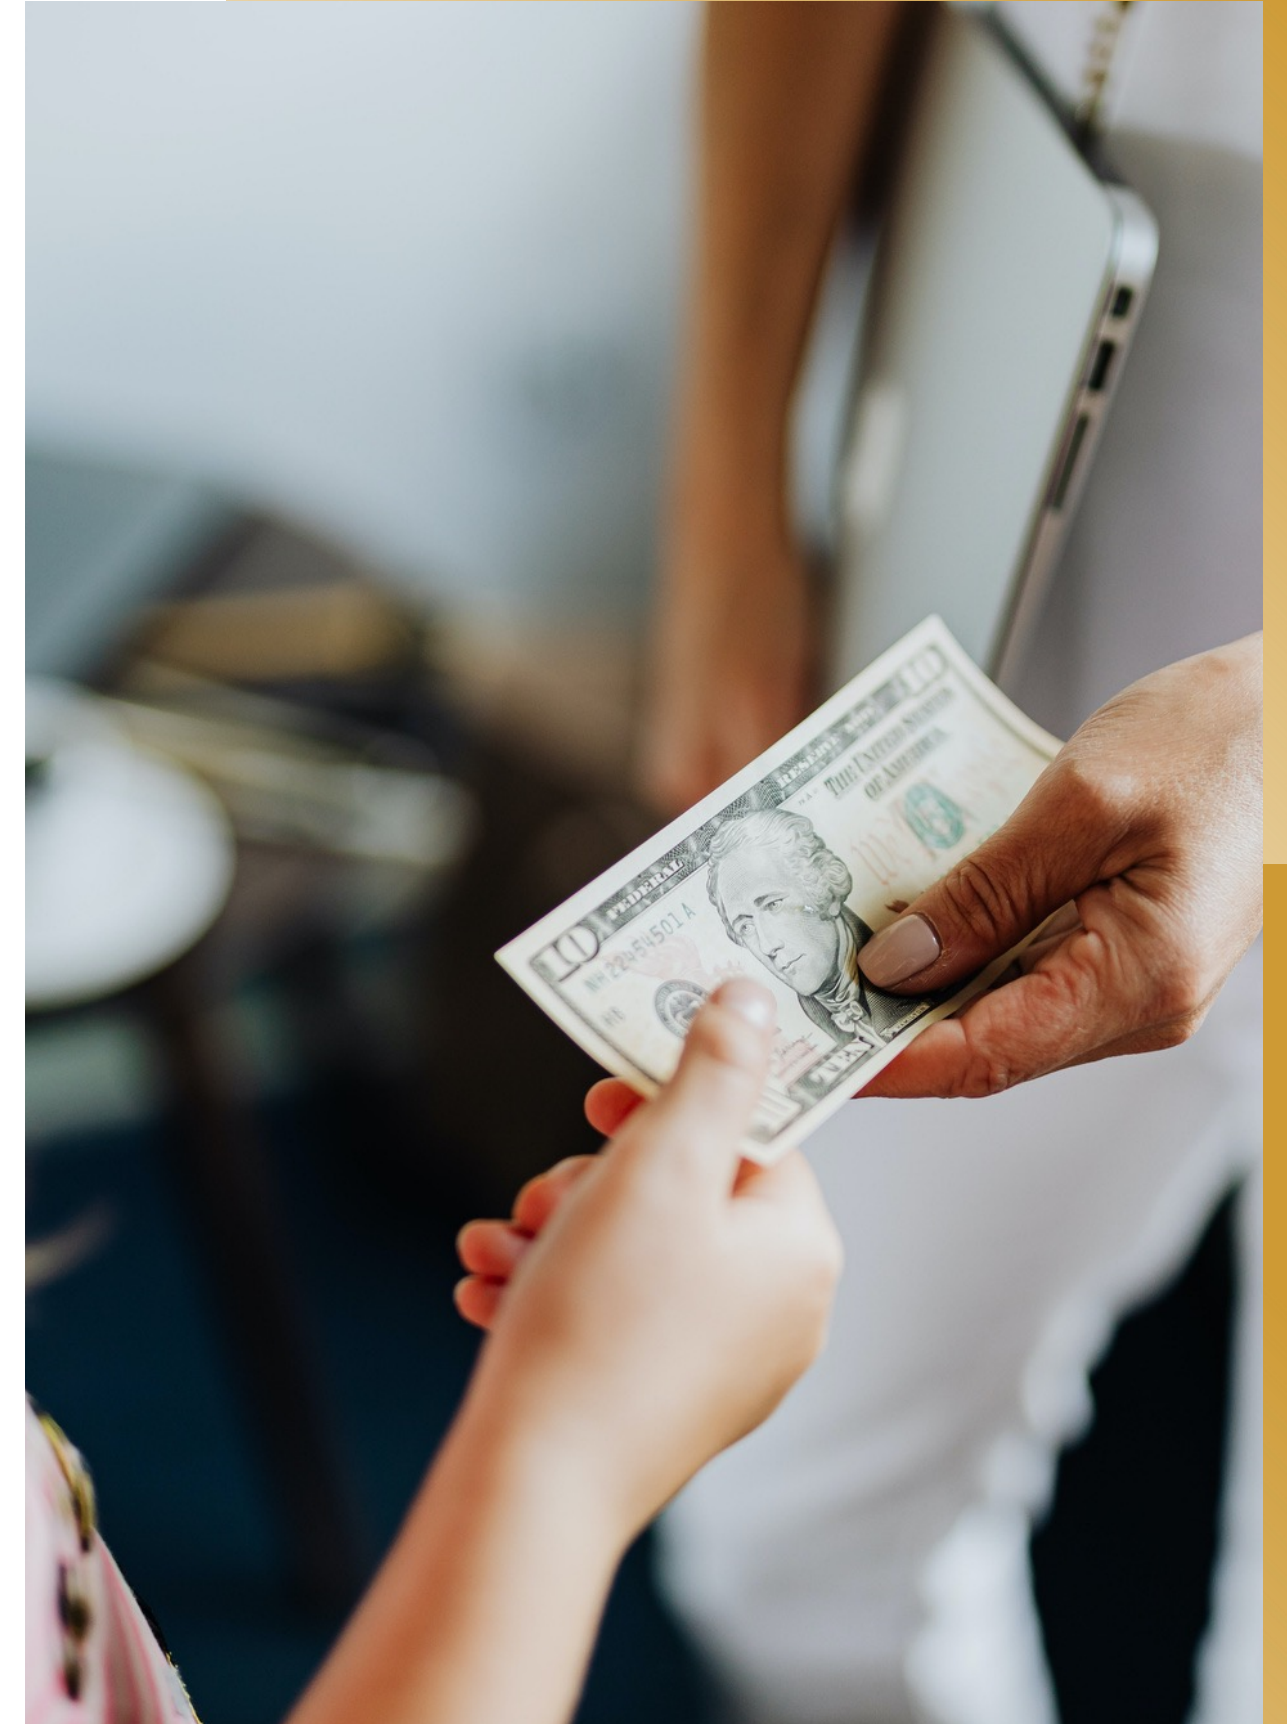

Why run on a Smart Contract?

Smart contracts are self-executing, business automation applications that run on a decentralized network such as blockchain. This self-executing feature makes it possible for business to handles hundreds of thousands and possibly millions of transaction without any downtime and financial error.

One-time Payment

Leeway Edu offers a one-time payment at each level. There are no monthly subscription or annual subscription. There is no subscription expiration of any kind unlike other training platform that require monthly or annual subscription. Leeway subscription is one-time fee on each level

University-like Structure

The university system offers a curriculum of various courses spread across multiple levels and the courses are arranged from beginners to advance as you go higher up the level.

A new user starts from level 1 before getting a higher level.

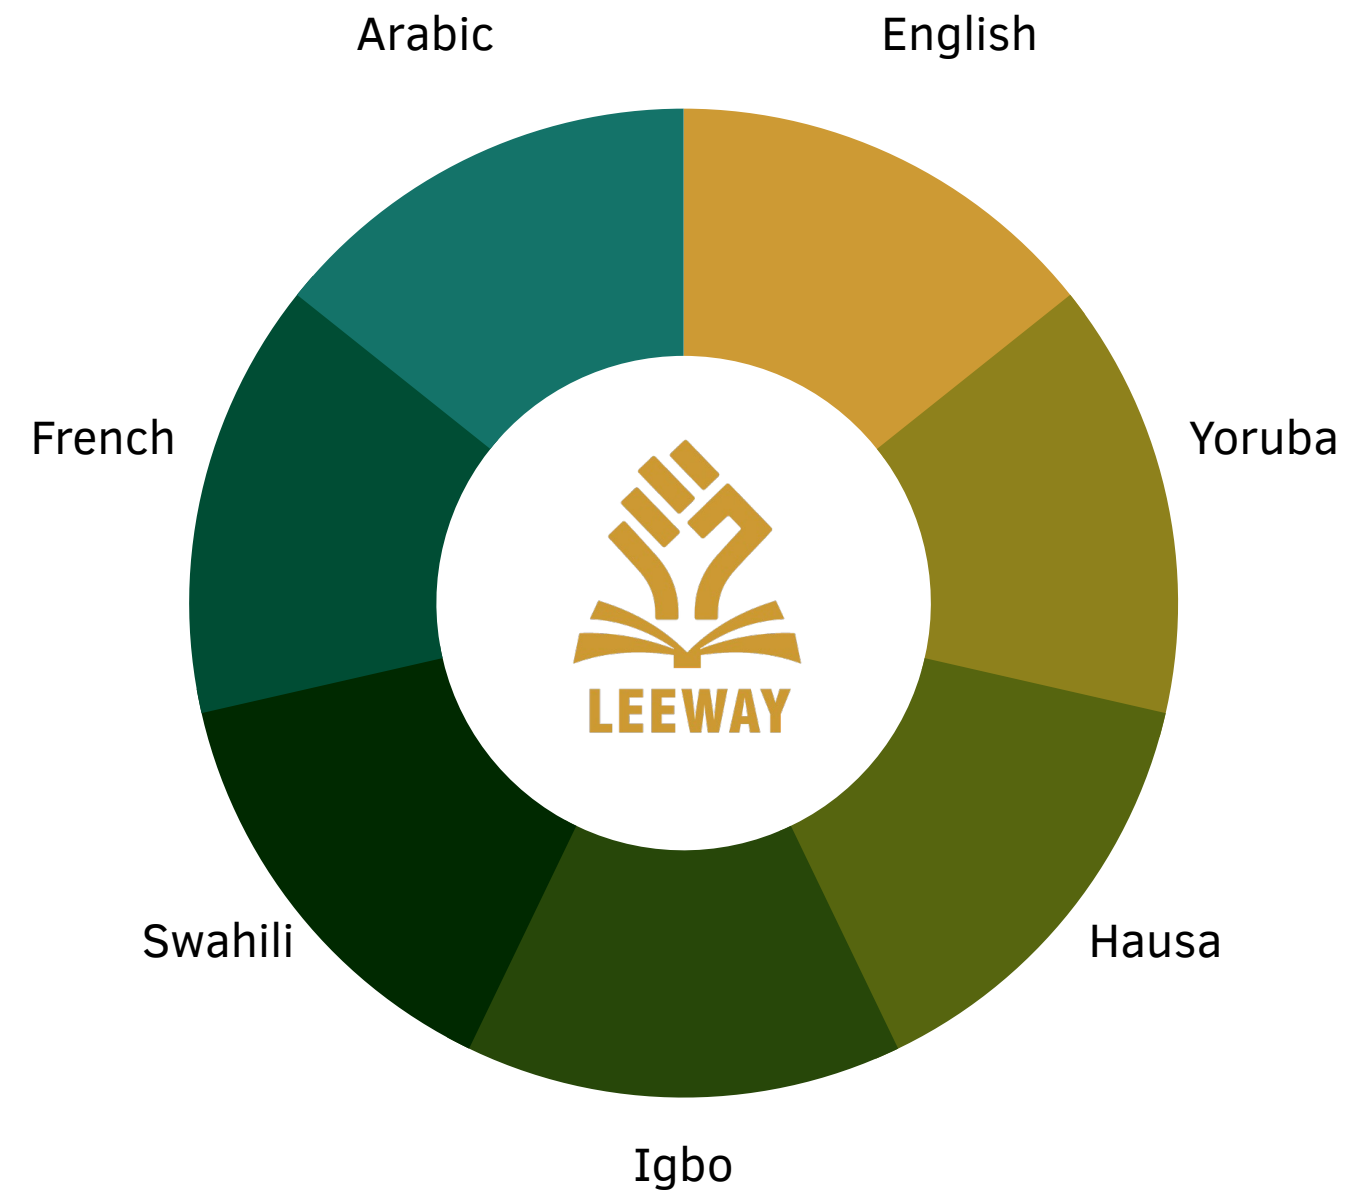

However, users can subscribe to the all levels upon registration but cannot register a higher level without first registering the previous level. The user has access to all courses and these contents are broken down in bits and easily understandable

Multiple Languages

Leeway Edu Platform courses will be available in seven different languages. These languages include English, French, Swahili, Arabic, Igbo, Yoruba and Hausa.

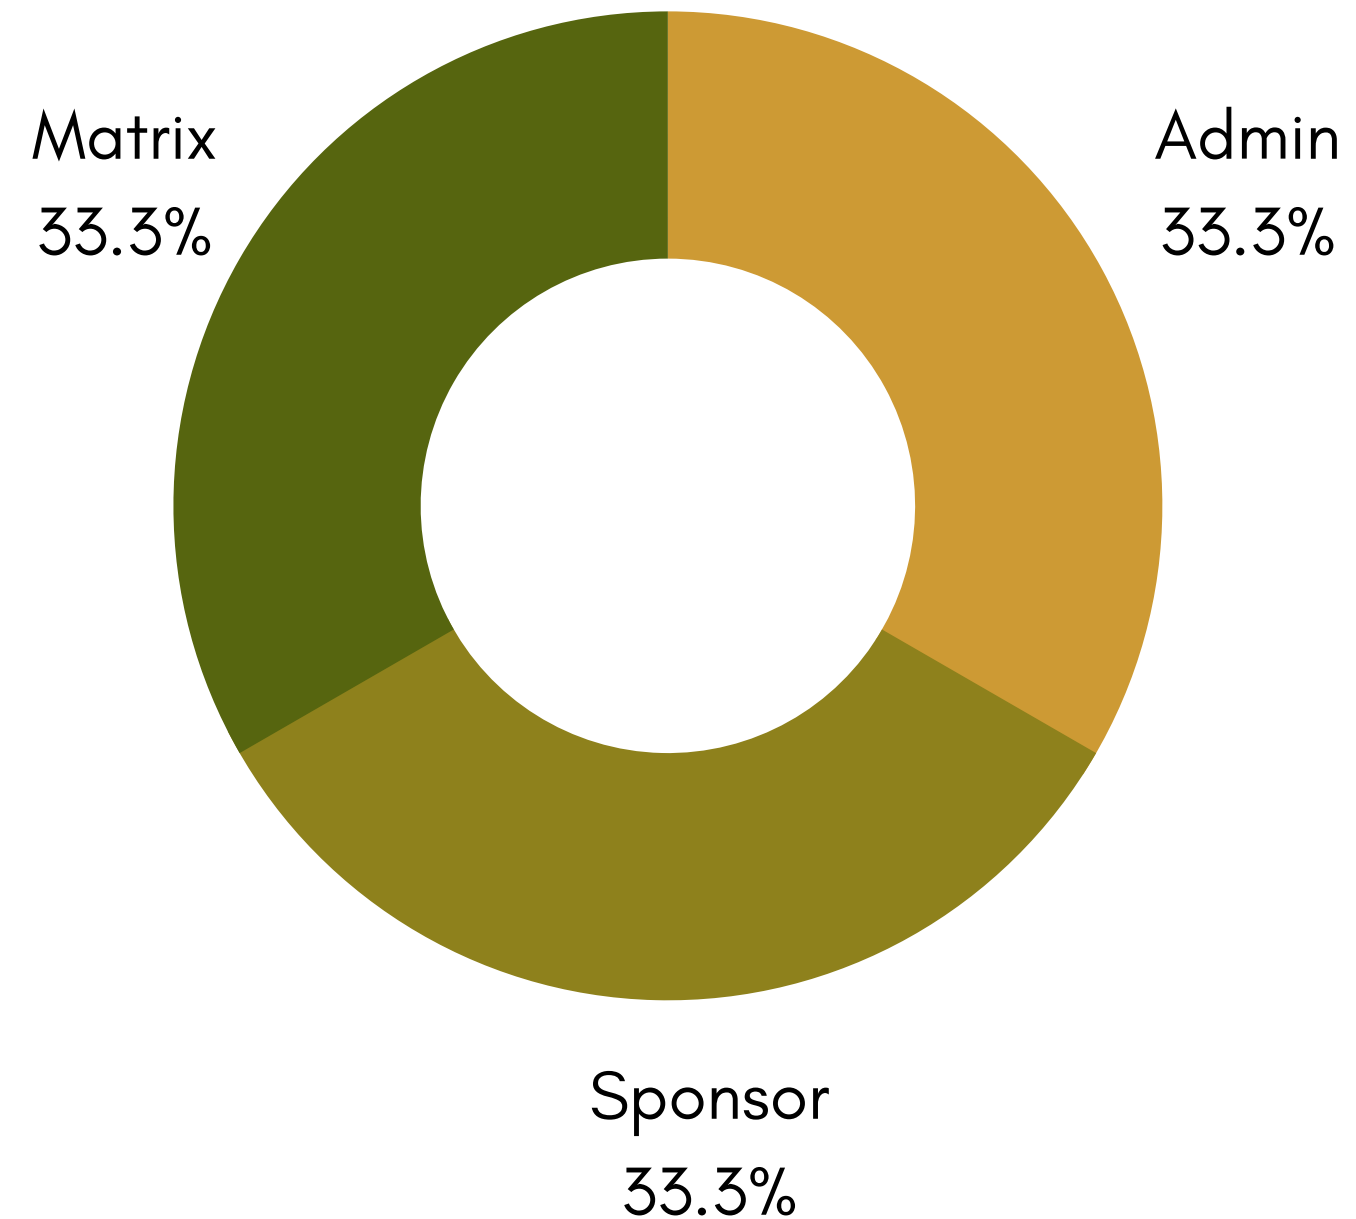

MULTIPLE LANGUAGE TRANSLATION

REGISTRATION

The registration fee into level 1 costs \$15 SOL. This fee is distributed into 3 parts. \$5 goes to your sponsor, \$5 goes to the admin, and \$5 places you on a Global Matrix. You can purchase more than 1 Level upon registration but you cannot register level 2 without first registering level 1.

REGISTRATION FEE DISTRIBUTION

Registration

 **LEVEL 1**

Freshman: \$15

 **LEVEL 2**

Sophomore: \$30

 **LEVEL 3**

Junior: \$75

 **LEVEL 4**

Senior: \$150

 **LEVEL 5**

Associate: \$300

 **LEVEL 6**

Master: \$750

Upgrade

Upgrade- is registering of the next level. This can be done after the user has paid for the previous level completed all the courses in that level and answered all the quiz questions correctly.

When a user upgrades to the next level, his registration fee is also distributed to his sponsor, the admin and a new matrix start on the new level provided his sponsor has upgraded

Reward Plan

Bonus**

**Matrix
Bonus**

Knowledge Application Reward & Certificate

Direct Sponsor Bonus

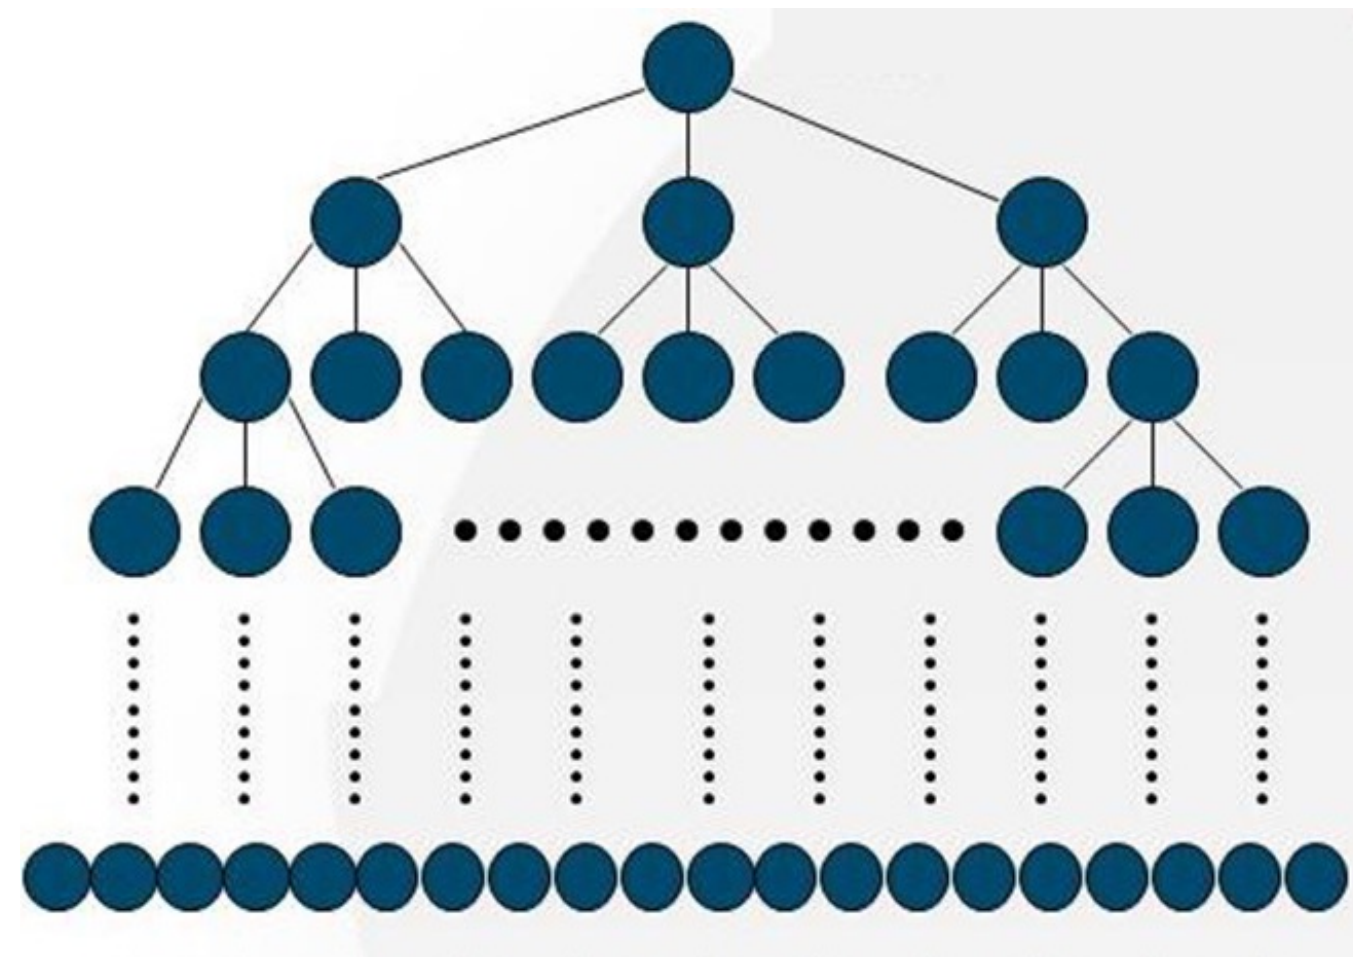

Sponsor a freshman and earn \$5 as Direct Sponsor Bonus

■ Referral Commission

As part of our goal to make our subscribers financially free we have added a 33.33% sponsorship bonus on all directly sponsorship members, for example if John refers Alice and Alice signs up with \$15, \$5 goes to project development and john earns \$5 instantly for sponsoring Alice.

Network Building Bonus

Matrix Commission

In order to achieve our target of 1,000,000 in 2 years, we introduced a network building bonus to reward individuals coming in on time. 33.3% of the registration & upgrade fee is used to start a 3 x 10 forced matrix to encourage every member to build their team & encourage their sponsored member to keep building.

When a user registers \$5 is used to start a matrix for him in level 1. When he completes level 1 courses and upgrades to level 2, another Level 2 Matrix starts with \$10. This continues up to level 6. A user at level 6 would have 6 different matrices running at the same time

Leeway token \$LEWT is a utility token for the leeway ecosystem. Leeway ecosystem is a series of blockchain and crypto-related projects. It comprises blockchain solutions from education, voting and governance, decentralised finance, wallet service, trading and charity.

Leeway Token will be used as incentive to all subscribers of the LeewayEdu platform. All subscribers will receive 100% of their subscription fee in Leeway tokens upon successful completion of each level.

For example, If Alice registers with \$15 to start level 1 after she has completely watched her course videos and passed the quiz questions, she will be credited 100% of her registration fee. i.e. \$15 LEWT. Similarly, when she upgrades to the next level 100% is paid to her upon successful completion of the matrix.
